

## **Kellie Manuel**

If you are specifically wanting to own a Bichon Frise as a pet and are looking for a reputable breeder, let us tell you that we are forever grateful that we found Townsend Bichons.

Grant and Colleen Townsend are Bichon Frise breeders in Hamilton Ontario, whom we have gotten to know pretty well throughout our journey, and they are a delight!

It took almost 2 years to get our little girl, Bella, but it was well worth the wait (and 3-hour drive)! While we waited for Bella to be born, Colleen and Grant would keep us updated on the mother's health and when she was born, sent us pictures and even arranged a video chat so we could see how Bella was growing. She was already microchipped and had her shot and paperwork done when we picked her up!

Colleen and Grant are very special people who are passionate about their dogs and it is evident they love looking after all their furry babies! They make the time to answer questions and inform anxious owners awaiting to receive their chosen loved one.

They also make certain their adult females breeding cycles are alternated to ensure their health and safety and also so they can enjoy a rest and just....be a dog! When we visited, we could easily see their love for what they do and how happy and well cared for their dogs were. To us, that spoke volumes of their professionalism and integrity.

We continue to keep in touch with Colleen and Grant to send updated puppy pictures so they can see how much Bella is spoiled. She is now 8 months old, and a very intelligent little dog! She has her own unique personality and makes us laugh every day!

We love her and would highly recommend Townsend Bichons breeders to anyone who wants a little bundle of joy knowing it comes from a clean, safe and loving environment!

**S. & G. Midland, ON.**
